## The Stadium

**A**FTER forty years of continuous service to the boys and girls of Rock Springs, the old rock building, its period of usefulness over, finds itself again ministering to the needs of humanity in the form of this stadium. Most of the material for this structure came from the old building. Even the name plate, a large rock bearing the inscription, "Public School 1891," will be found in the back wall. The old corner stone now contains not only the records placed there in 1891, but also the contributions of many of the men who helped construct the stadium.

Thus did the "Rock Building" live and grow and fall into decay only to spring into life again in another form, even as you and I.
